Subject: RE: House Transportation Committee 6/6/13 Testimony for the record.

Hi! Ok. I'll copy and paste. Sorry about that.

Please enter this testimony into the record for the House Transportation and Infrastructure Committee Meeting

6/6/2013

Testimony Against HB 4359, HB 4630, HB 4632 and HB 4763

Dear Esteemed Michigan Lawmakers,

Can't express my disappointment in this body that you are even considering raising our taxes and burdening us with red light cameras. In this Obama-economy where we are all being squeezed at every turn, you're coming after our hard-earned money too! Instead, you should be protecting Michigan's economy by cutting taxes. The money for the roads is already in the budget. You need to prioritize the budget and cut less important items/programs.

Regarding the red-light cameras: we all know this is a money grab. Stop it! It's underhanded!

In Liberty,

**Isabelle Terry
5822 Olde Meadow Ct. NE
Rockford, MI 49341**
